PMDY - Project Management Framework and Integration

Course purpose:
This is the first core course in a six-course curriculum developed to improve business performance through the disciplined application of proven project management processes and techniques. This course provides an introduction to modern project management as practiced by BAE Systems and as organized by the Project Management Institute (PMI®) in their Project Management Body of Knowledge (PMBOK® Guide) or as organized by the Association for Project Management Body of Knowledge (APMBoK).

You will learn how to:
- Tour the contents of well known project frameworks
- Map the project manager’s job to PMDY courses
- Understand Lifecycle Management Guides
- Consider scaling the tools for any program, project, phase, or work-package in BAE Systems
- Integrate the tools across integrated project teams
- Prepare for World-Class application of project management as an integrator of systems of systems

Quotes from course attendees:
“Good introductory course that provides the framework for LCM, PMI® certification and PMDY 2-6.”

“This course provided the “Big Picture” of the elements of Project Management and how they relate to each other very well. The LCM instruction was very helpful as well. Excellent “1st course” in the PMDY series.”

Other information:
Course Duration: 2 days
Course Credits: PMI® PDUs: 14
APM CPDs: 5

About PMDY
The Project Management Developing You (PMDY) training curriculum enables you to deliver successful business performance through project management. The courses provide the skills, values, tools and techniques to enable you to make an immediate and powerful contribution to managing projects back in your workplace. Relevant to all project types and sizes, PMDY covers the decisions, working practices, processes, tools and mindsets so that your projects are clearly defined, realistically planned and effectively managed. Developed by internationally recognized experts in project management who have a deep working knowledge of BAE Systems, the courses are aligned to BAE Systems’ Lifecycle Management (LCM) guides with a focus on practical application throughout. Completion of the core curriculum also prepares delegates for either the Association for Project Management’s APMP (IPMA Level D), or the Project Management Institute’s PMP®. Atlantic Management Center, Inc. (AMCI) is BAE Systems’ strategic partner for developing and delivering PMDY, which now encompasses over 30 training courses. For more information please visit our website at www.amciweb.com where you can download the PMDY Catalog of Developmental Opportunities from the BAE Systems pages.
